

DDP Services List 2025

Our sister company, The Dirty Dozen Expeditions, specializes in creating expertly curated technical diving itineraries that explore some of the most remote places on the planet. We have serviced thousands of highly experienced technical divers and several high-profile productions, which in turn enables us to be a one stop media and logistical house to cover the needs on an underwater project. The following locations have priority access to boats with advanced technical diving support, but our extensive dive operations experience can be applied globally.

Boat Charters

- Truk Lagoon, Micronesia
- Bikini Atoll, Marshall Islands
- Galapagos National Park, Ecuador
- Bahamas National Park, Bahamas
- Komodo and Raja Ampat National Park, Indonesia
